

## Solvay receives a Gulfstream Supplier of the Year Award

**Alpharetta, GA, June 5th 2018 --** Solvay is proud to receive a Gulfstream Supplier of the Year Award, in recognition of the company's performance in engineering, quality, reliability, delivery, and product support.

Solvay supplies Gulfstream Aerospace Corp. with a range of composite materials, adhesive and surfacing films out of its Anaheim CA, Greenville TX and Have de Grace, MD sites. These products are used in the Gulfstream G500, G550, G600 and G650 programs.

"At Solvay we strive to go beyond material supply by partnering with our customers to provide value driving technologies and service. We receive this Award from Gulfstream with honor and gratitude; we will hold it as an example of how dedication and commitment to our customers' needs results in highly successful and motivating outcomes for the programs we serve. We look forward to an ongoing positive relationship with Gulfstream and its partners in the future" said Marc Doyle, Executive Vice President Aerospace Business Line of Solvay's Composite Materials Global Business Unit.

### About Solvay Composite Materials

Solvay's new Global Business Unit Composite Materials is a global provider of technologically advanced lightweighting material solutions that enable our customers in the aerospace, automotive and other demanding industries to design, develop and efficiently manufacture high-quality, high-performance and complex composite structures. Composite Materials has the most extensive product portfolio, including prepregs, resin systems, adhesives and surfacing films, carbon fiber, textiles, tooling and vacuum bagging consumables, thanks to its leadership in advanced materials science, chemistry and application engineering. Solvay Composite Materials combines the former Cytec Aerospace Materials and Industrial Materials businesses.

**Solvay** is an advanced materials and specialty chemicals company, committed to developing chemistry that addresses key societal challenges. Solvay innovates and partners with customers worldwide in many diverse end markets. Its products are used in planes, cars, batteries, smart and medical devices, as well as in mineral and oil and gas extraction, enhancing efficiency and sustainability. Its lightweighting materials promote cleaner mobility, its formulations optimize the use of resources and its performance chemicals improve air and water quality. Solvay is headquartered in Brussels with around 24,500 employees in 61 countries. Net sales were €10.1 billion in 2017, with 90% from activities where Solvay ranks among the world's top 3 leaders, resulting in an EBITDA margin of 22%. Solvay SA (**SOLB.BE**) is listed on Euronext Brussels and Paris (Bloomberg: **SOLB.BB** - Reuters: **SOLB.BR**) and in the United States its shares (**SOLVY**) are traded through a level-1 ADR program.
