**Re: Declaration for Ryton® PPS Products,
Directives 2011/65/EU and 2002/95/EC (RoHS)**

To Whom It May Concern:

Lead, mercury, cadmium, chromium, polybrominated biphenyls (PBBs), and polybrominated diphenyl ethers (PBDEs) are not intentionally introduced as additives into any Ryton®PPS products. Thus, these substances may only be present as adventitious trace impurities in the products.

As such, Ryton®PPS products, as supplied by Solvay Specialty Polymers USA, LLC, are compliant with the requirements of 2011/65/EU and 2002/95/EC as amended.

Sincerely,

A handwritten signature in black ink that reads 'John Bankston'.
