**Re: DecaBDE Declaration for Ryton® PPS Compounds and Xtel®  
PPS Alloys**

To Whom It May Concern:

Decabromodiphenylether (DecaBDE) is not intentionally used in the production of any Ryton® PPS compounds or Xtel® PPS Alloy compounds. DecaBDE is not normally expected to be present in any Ryton® PPS compounds or Xtel® PPS Alloy compounds at concentrations exceeding 1 ppm and may only be present as an adventitious trace impurity in the products.

Sincerely,

A handwritten signature in black ink that reads 'John Bankston'.
