**Re: Declaration for Ryton® PPS or Xtel® PPS Alloy Products,  
Ozone-Depleting Substances**

To Whom It May Concern:

Ryton® PPS and Xtel® products do not utilize any suspected ozone-depleting substances, such as low molecular weight CFCs, CHCs, HCFCs, HFCs, freons, halons, perfluorocarbons (PFCs), etc., as additives or in the manufacturing process. This includes the substances mentioned in the Montreal Protocol on Substances that Deplete the Ozone Layer and the EC Regulation 2037/2000.

Sincerely,

A handwritten signature in black ink that reads 'John Bankston'.
