**Re: Declaration for Ryton® PPS or Xtel® PPS Alloy Products,  
Polycyclic Aromatic Hydrocarbons (PAHs)**

To Whom It May Concern:

Ryton® PPS and Xtel® PPS Alloy products do not utilize any intentionally added polycyclic aromatic hydrocarbon additives. Extractable polycyclic aromatic hydrocarbons, such as those mentioned in EC Directive 2005/69/EC, are not normally expected to be present in Ryton® PPS and Xtel® PPS Alloy products at concentrations exceeding 10 ppm.

Sincerely,

A handwritten signature in black ink that reads 'John Bankston'.
