**Re: Declaration for Ryton® PPS or Xtel® PPS Alloy Products,  
EC Directive 2003/11/EC (pentaBDE/octaBDE)**

To Whom It May Concern:

All Ryton® PPS and Xtel® products, as supplied by Solvay Specialty Polymers U.S., L.L.C., are normally expected to contain less than 0.1% pentabromodiphenylether (penta-BDE) and octabromodiphenylether (octa-BDE). Neither of these substances are intentionally introduced as additives into any Ryton® PPS or Xtel® products, and these substances may only be present as adventitious trace impurities in the products.

Sincerely,
