# Solvay Specialty Polymers Policy for Health, Safety, Environment and Quality

Solvay Specialty Polymers is a world leader in high performance polymers. Our firm belief is that being excellent in Health, Safety, Environment and Quality is crucial for generating a growing, successful and sustainable business.

It is within this context and with respect to our established Business Management System for Health, Safety, Environment and Quality, my Leadership Team and I are committed to:

- 1 Ensuring that appropriate policies and objectives are established that are compliant and compatible with both the relevant context and strategic direction of our organization
- 2 Promoting the use of the process approach and risk-based thinking
- 3 Ensuring that the resources needed are available
- 4 Ensuring that our system is prevention oriented in efforts to protect all our stakeholders from injury or ill health, the environment against pollution and customers from nonconforming products and services
- 5 Abiding by all applicable legal requirements and other specific commitment(s) relevant to the context of our organization
- 6 Promoting continual improvement
- 7 Reducing where possible, waste generation, energy consumption and use of natural resources
- 8 Focusing on customer satisfaction by striving to meet mutually agreed upon requirements and expectations.

***Michael Finelli, Solvay Specialty Polymers President, and the Leadership Team***
