PROXITANE® AHC

DISINFECT, CLEAN, DEODORIZE

COMMERCIAL, INSITUTIONAL, INDUSTRIAL ENVIRONMENTS

PROXITANE® AHC is a concentrated liquid disinfectant, effective against a broad range of bacteria, viruses, and fungi. Product works by generating free oxygen which attacks proteins. There is no known antimicrobial resistance to peracetic acid.

PROXITANE® AHC has been specially formulated with a detergent for excellent cleaning and contact with surfaces spanning plastic, stainless steel, linoleum, vinyl, glazed porcelain, and glass.

PROXITANE® AHC is diluted at approximately 2 oz of product to 5 gallons of water, applied to the surface, and left for a minimum of 10 minutes. Area can be fogged with PROXITANE® AHC, as a supplement to the treatment. See label for exact dose and application instructions.

PROXITANE® AHC breaks down in the environment to vinegar and water, does not stain, and leaves no harmful pesticide residues.

PROXITANE® AHC can be used in places like schools, colleges, industrial facilities, office buildings, kennels, vehicles, recreational facilities, retail establishments, and pharmaceutical and cosmetic manufacturing facilities.

PROXITANE® AHC is a broad spectrum disinfectant that has demonstrated efficacy against both gram positive and gram negative bacteria, viruses, and fungi including:	
Enveloped virus	Influenza A virus, Vesicular Stomatitis, Porcine Respiratory and Reproductive Syndrome Virus, Infectious Bovine Rhinotracheitis, Newcastle Disease Virus, Avian Influenza A (H3N2) Virus
Large, non-enveloped virus	Infectious Bursal Disease Virus
Small, non-enveloped virus	Rhinovirus Type 37
Gram +, bacteria	Staphylococcus aureus
Gram -, bacteria	Salmonella enterica
Fungi	Trichophyton mentagrophytes

Read and understand Label and SDS before use. For application follow instructions in label. Always wear appropriate PPE when applying.
