# Solvay honored to represent Belgium at the Dubai World Expo

Exhibition will showcase Solvay as a global leader in clean mobility and resource efficiency

Brussels, September 29, 2021

Solvay is proud to announce its participation in the Dubai World Fair 2021-2022, which starts on October 1, 2021. Solvay will be an integral part of the exhibition at the Belgian pavilion, which brings together thinkers and entrepreneurs from Brussels, Flanders and Wallonia to sketch their vision for the year 2050 and form the basis of a smart, safe and clean mobility future through innovation.

In the Belgian pavilion, Solvay will focus on its technological solutions for sustainable mobility through digital displays, videos and augmented reality tools. Solvay's solutions are essential on the path towards more sustainable transportation: [replacing metal with lightweight, durable materials in automobiles and aircrafts](#) so they emit less CO<sub>2</sub>; offering new [circular solutions for lithium-ion batteries](#) in electric and hybrid vehicles; providing essential materials for [hydrogen fuel cell technology](#), among others.

Ilham Kadri, CEO of Solvay said: "Our scientists in Belgium and around the world are currently working on break-through innovations that can make the impossible possible, and have the power to revolutionize human progress and mobility for the future. Solvay is committed to developing the innovative products that will shape this future. We are proud to represent Belgium's industry and hope many visitors will discover these groundbreaking innovations in the Belgian pavilion."

## About Solvay

Solvay is a science company whose technologies bring benefits to many aspects of daily life. With more than 23,000 employees in 64 countries, Solvay bonds people, ideas and elements to reinvent progress. The Group seeks to create sustainable shared value for all, notably through its Solvay One Planet roadmap crafted around three pillars: protecting the climate, preserving resources and fostering a better life. The Group's innovative solutions contribute to safer, cleaner, and more sustainable products found in homes, food and consumer goods, planes, cars, batteries, smart devices, health care applications, water and air purification systems. Founded in 1863, Solvay today ranks among the world's top three companies for the vast majority of its activities and delivered net sales of €9 billion in 2020. Solvay is listed on Euronext Brussels and Paris (SOLB). Learn more at [www.solvay.com](http://www.solvay.com).
