

## Solvay announces global price increase for MAX HT® scale inhibitor products

**Woodland Park, N.J., April 13, 2017** --- Effective June 1, 2017, or as contracts allow, Solvay's global business unit, Technology Solutions, will implement an across-the-board price increase of 10 percent for MAX HT® scale inhibitor products.

This price increase is necessary due to higher operations and maintenance costs required to sustain Solvay's production capabilities and, in particular, a requirement to cease deferment of critical component replacement.

Solvay remains committed to leveraging its deep understanding of chemistry and global supply chain to help customers achieve their goals, now and in the future.
