

Solvay is launching a brand new emulsifier range at the 20th International Colloquium Tribology in Germany!

Solvay is launching a brand new emulsifier range aiming at replacing classical cetyl-oleyl chemistry in Metal Working Fluid applications. The benefits of these new surfactants are a higher sustainability and enhanced performance:

- **Higher sustainability:** the new emulsifiers provide formulations with a milder labeling for they don't bear corrosive and dead fish labels. They are also based on globally available vegetable raw materials.
- **Enhanced performance:** the new emulsifiers provide outstanding defoaming, as well as excellent low temperature stability.

The new **Rhodasurf® LF5** is an emulsifier for cutting fluids and hot rolling fluids and is a sustainable alternative to cetyl-oleyl 5 EO. Our new range consists also of Rhodasurf® LF21, Rhodasurf® LF22, and Rhodasurf® LF3000.

For Further information about these products, don't hesitate to contact us or visit our **booth #13** at 20th International Colloquium Tribology - TA Esslingen.

Solvay Novacare offers solutions based on specialty surfactants, polymers, amines, solvents, guar and phosphorus derivatives for the agrochemicals, coatings, home & personal care, industrial manufacturing, and oil & gas industries. Novacare strengthened its surfactant position with the successful acquisitions of US-based personal care manufacturer the McIntyre Group, China's leading amines and surfactants producer, Feixiang Chemicals and lately with Sunshield Chemicals Limited, an Indian surfactants producer. Based in Cranbury, New Jersey, Novacare employs more than 3,300 professional and operates 28 production sites and 7 R&D centers around the world.

As an international chemical group, **SOLVAY** assists industries in finding and implementing ever more responsible and value-creating solutions. Solvay generates 90% of its net sales in activities where it is among the world's top three players. It serves many markets, varying from energy and the environment to automotive and aeronautics or electricity and electronics, with one goal: to raise the performance of its clients and improve society's quality of life. The group is headquartered in Brussels, employs about 26,000 people in 52 countries and generated 10.2 billion euros in net sales in 2014. Solvay SA (SOLB.BE) is listed on EURONEXT Brussels and EURONEXT Paris (Bloomberg: SOLB:BB - Reuters: SOLB.BR).
