

GERONOL® ODESSA ROBUST SOLUTION FOR OIL DISPERSION

CURRENT MARKET NEEDS

The agromarket industry deals with more and more poorly soluble (in aqueous and organic solvents) or water sensitive (sulfonylurea) active ingredients. Furthermore, regulation pressures to switch to harmless and bio-efficient solvents. These drivers will move the market towards Oil Dispersion formulations.

SOLVAY VALUE PROPOSITION

All in one solution:

- ▶ Emulsifying agent
- ▶ Dispersing agent
- ▶ Rheological additive
- ▶ Activator

CUSTOMER BENEFITS

- ▶ Good cost vs performance profile
- ▶ Vegetable oils based on Oil Dispersion are safer
- ▶ Wide range of OD's formulation with Odessa 01 and Odessa 05 tailored for your needs

▶ OD's formulation example with ODESSA 05

Indoxacarb 150 g/l OD

Indoxacarb tec. 95%	157 g/l
Geronol Odessa 05	834 g/l

TECHNOLOGIES

Odessa series to reinforce OD stabilization and easy formulation

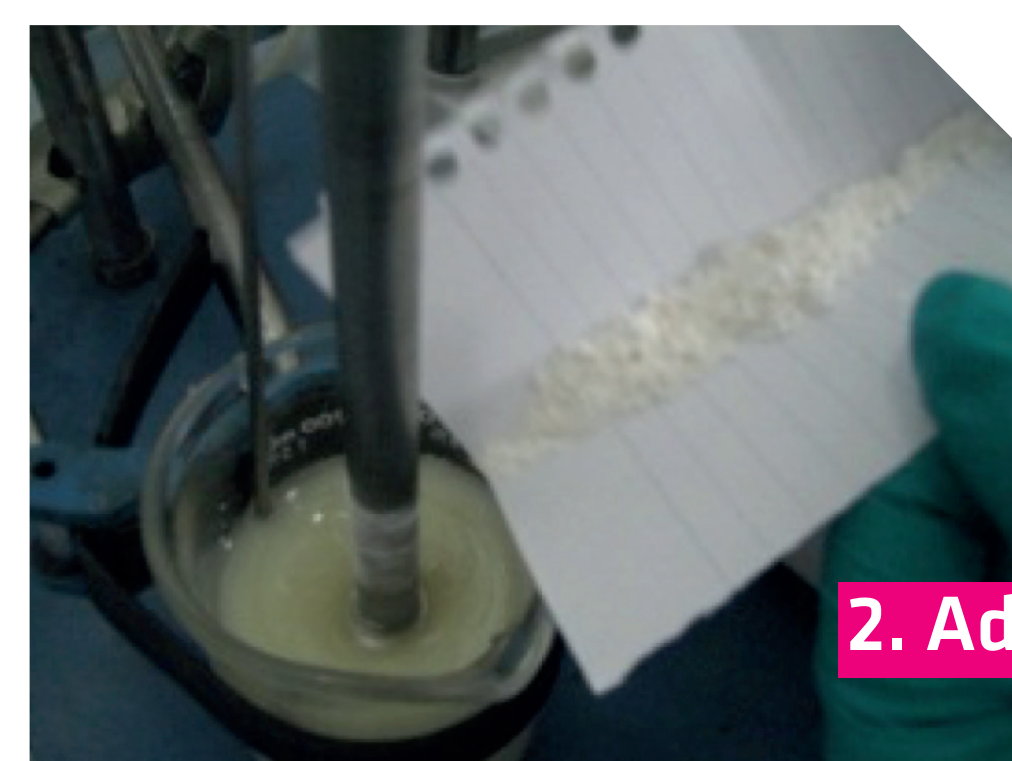

- ▶ Geronol Odessa **01** for Vegetable Oil based OD
- ▶ Geronol Odessa **05** for MSO methylated seed oil based OD

APPLICATIONS

OD formulation made easy

1. Blend Odessa + Oil

2. Add the ai's

3. Mill it and pack it
