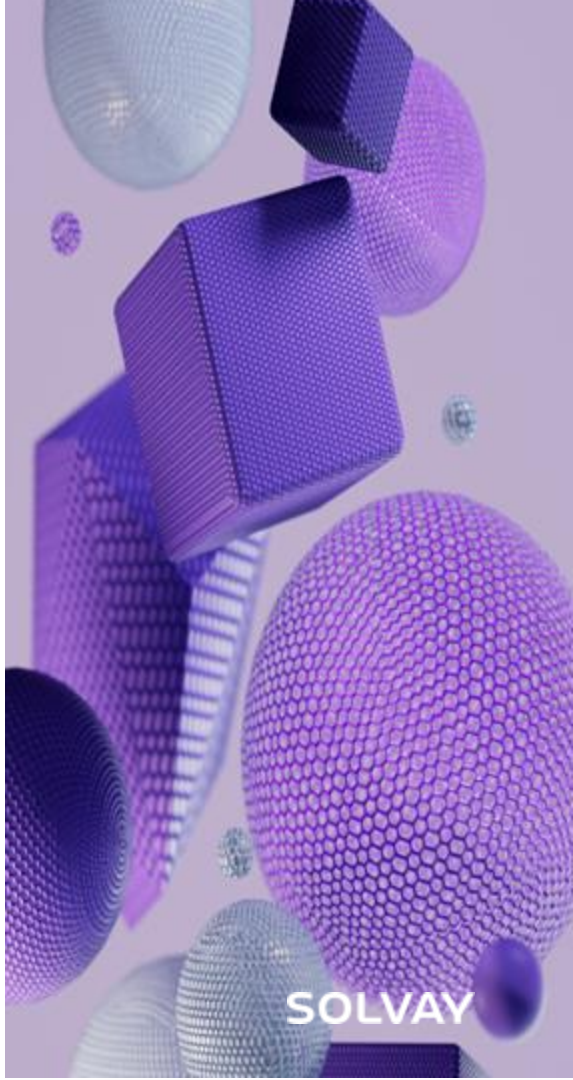
SOLVAY

Procurement Sustainability Global Targets and KPIs 2025

Global Sustainable Procurement Targets

- 100% of Solvay’s core suppliers are assessed by EcoVadis each year
- 100% of Solvay’s suppliers with a score below 30 on EcoVadis Human Rights section perform a TFS audit within a year
- 80% of Solvay’s suppliers with an EcoVadis score below a certain level engage in Corrective Actions within a year
- 100% of Solvay’s targeted suppliers sign SCoBI and have sustainability clauses in their contracts by 2027
- 100% of our core suppliers and suppliers at high risk are screened against adverse media each year
- 100% of the Procurement Organisation employees are trained on sustainable procurement each year
- 100% of Solvay’s buyers lead at least 1 sustainable project each year
- Scope 3 emissions decrease by 20% by 2030 (baseline year 2021)

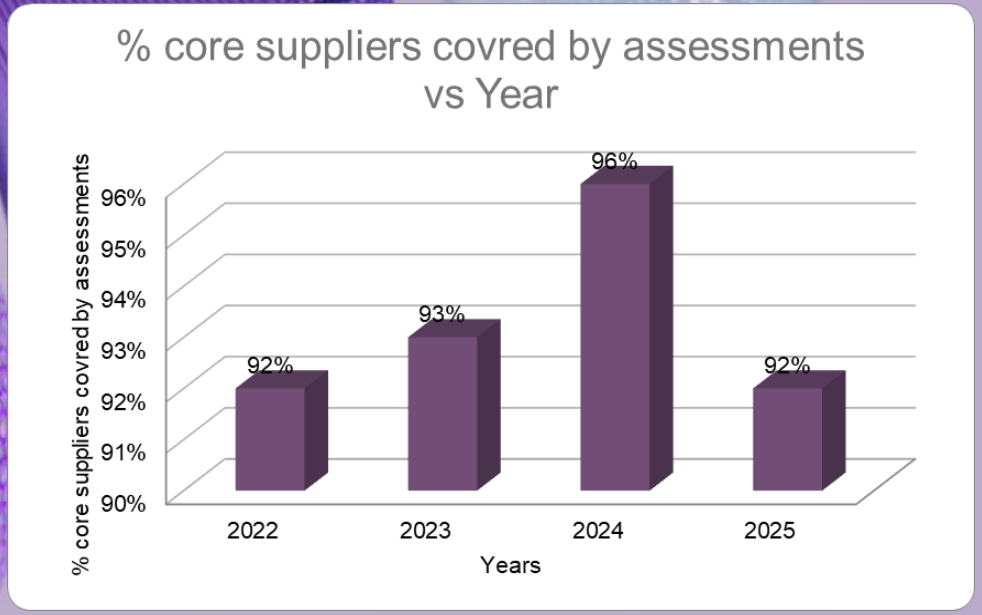


Assessments

92% of our core suppliers were assessed in 2025

As per our policy, all our core suppliers must be covered by an EcoVadis assessment (or an alternative that Solvay accept like SQAS, Responsible care ..)

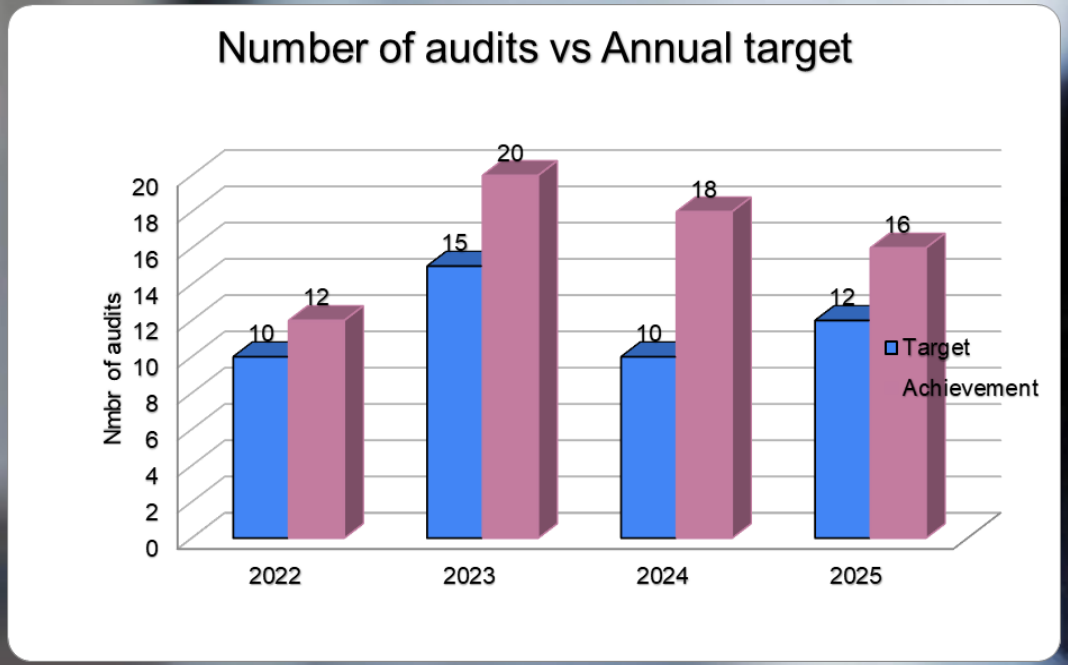
119 suppliers out of our 131 core suppliers have an EcoVadis assessment



SOLVAY

Audits

133% achieved - 16 suppliers were audited
In 2025



In 2025, our target of number of suppliers to audit is 12.

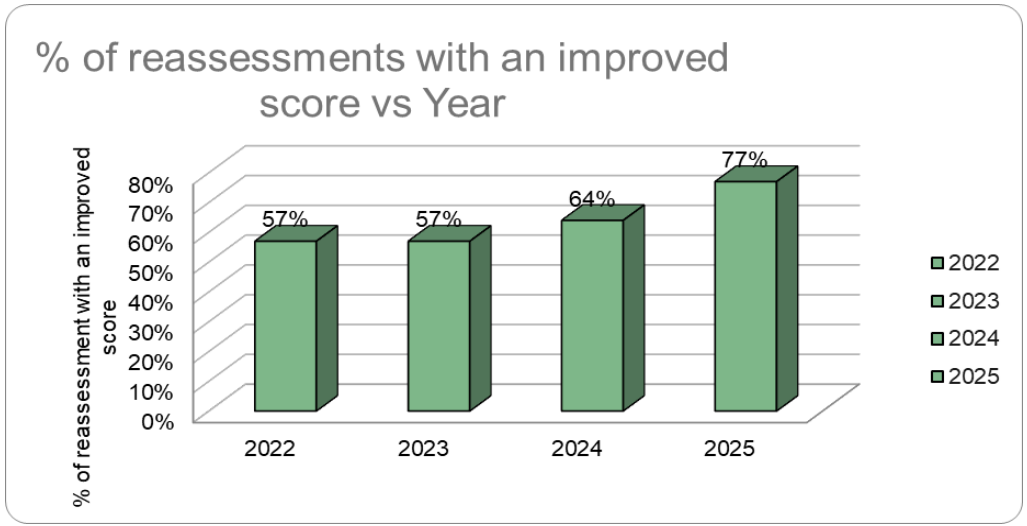
By the end of 2025, 16 suppliers were audited exceeding the annual target.

100% of Solvay's suppliers with a score below 30 on EcoVadis Human Rights section have performed a TFS audit.

SOLVAY

Corrective Actions

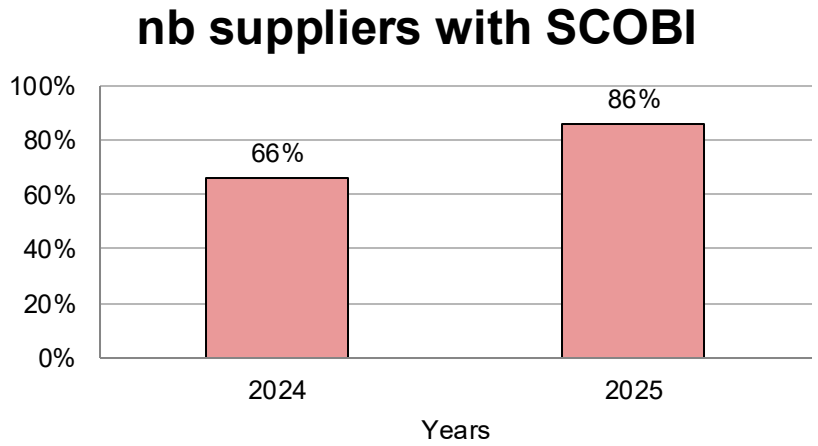
77% of our assessed suppliers engaged in corrective actions and increased their score by the end of 2025



We continue to actively engage with suppliers on corrective actions by maintaining ongoing communication and involving buyers to ensure alignment and progress.

SCoBI* & contracts with sustainability clauses

86 % of our targeted suppliers signed SCoBI and have sustainability clauses in their contracts in 2025



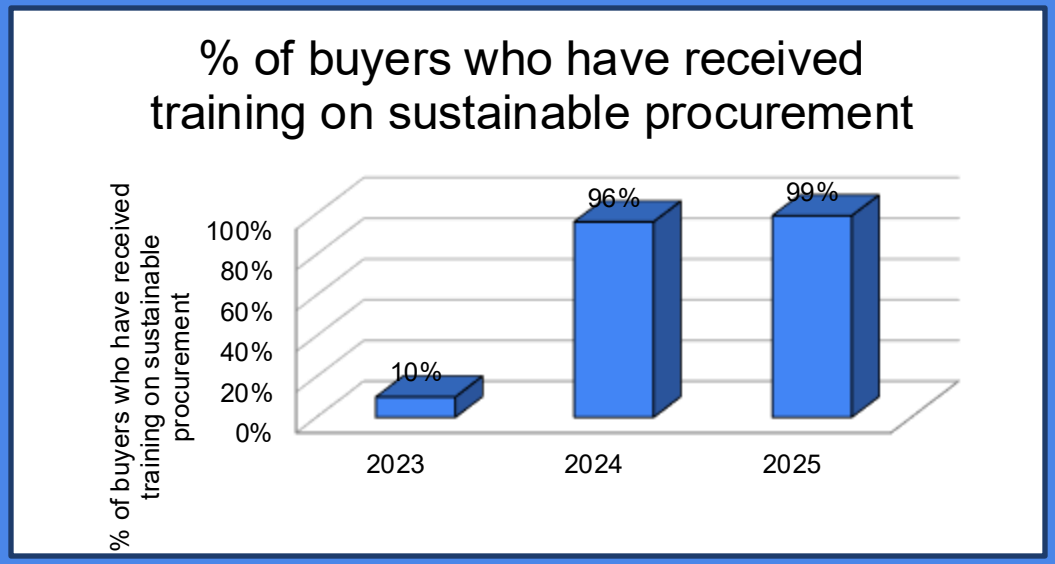
When doing business with Solvay, suppliers agree to follow the highest ethical and legal standards outlined in our SCoBI.

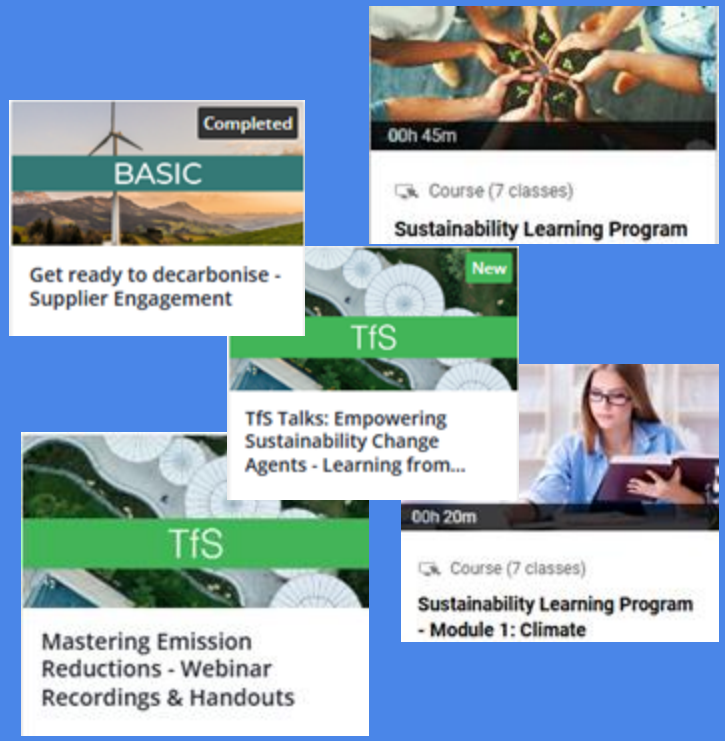
SOLVAY

*SCoBI = Solvay's Supplier Code of Business Integrity

Trainings

99% of buyers received training on sustainable procurement in 2025

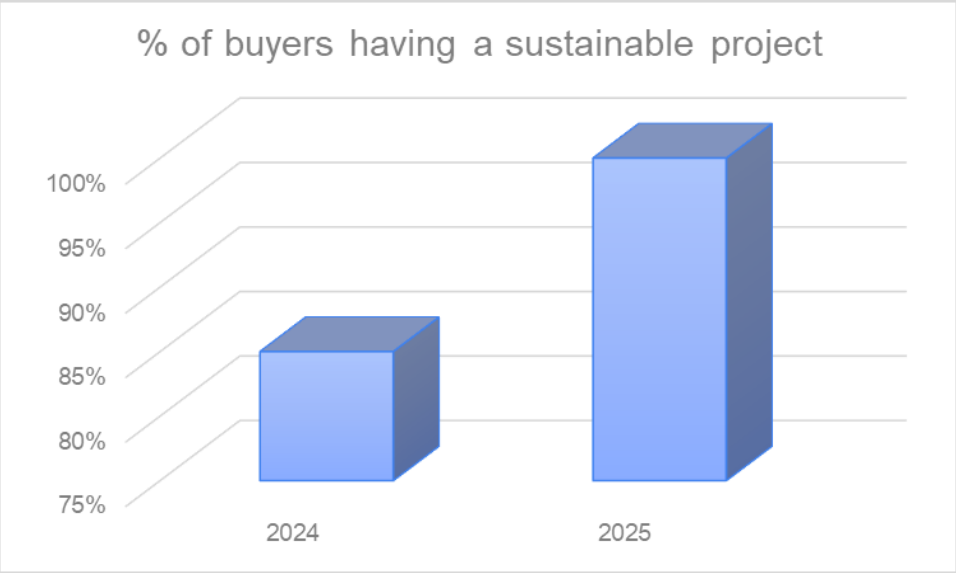




SOLVAY

One Buyer One Project Program

100% of buyers have at least 1 sustainable project
(in progress or implemented as of end of December 2025) - 113 projects in total



Each buyer leads at least **1 sustainable project each year**

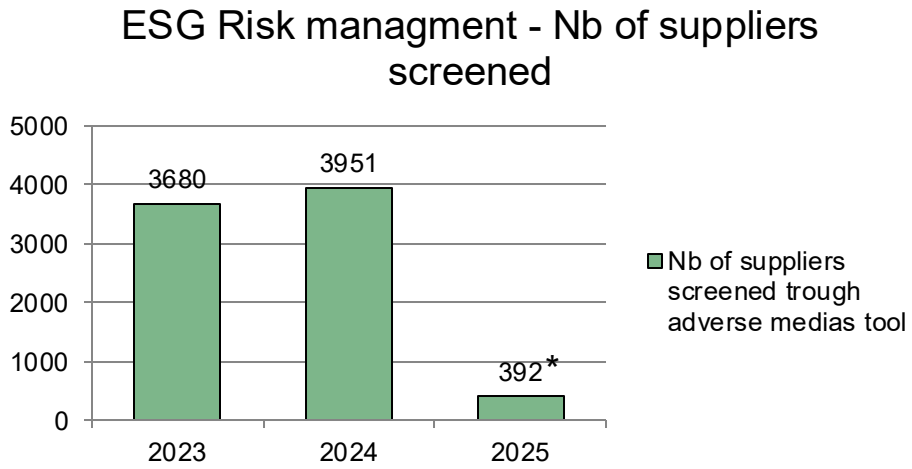
Projects are classified under ESG categories.

Annual **awards** celebrate the best projects.

SOLVAY

ESG Risk Management

392 suppliers were screened against adverse media in 2025 (100% of targeted suppliers)

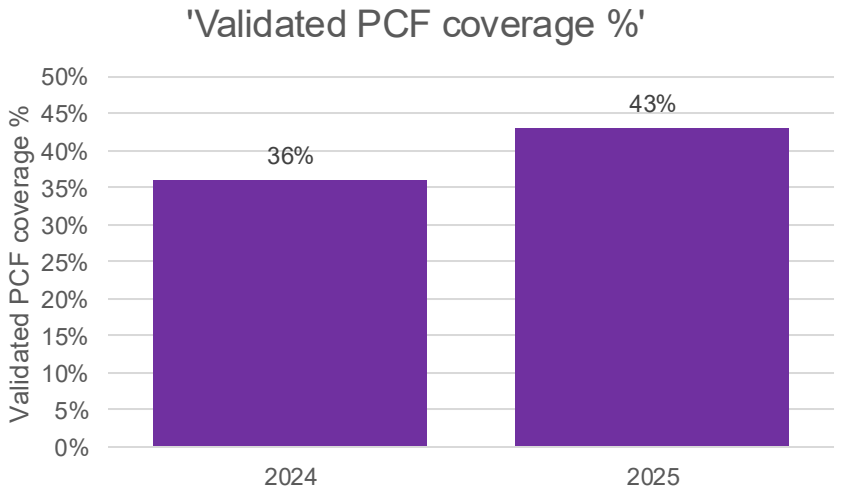


In order to limit risks in our supply chain, each year we conduct a screening against adverse media of our core and high-risk suppliers.

*Target 2025 changed to suppliers with a spend >100k€ only

Product Carbon Footprint

43% of Scope 3.1 emissions are covered by a validated primary PCFs by the end of 2025



We continue to actively engage with suppliers on PCF collection and validation as well as on decarbonization actions.
